Sir,

Sub: Education - Fisheries Higher elementary school, Kanhangad - bifurcation of standard I - employment of additional Higher Elementary Grade teacher.

2622

The Fisheries school at Kanhangad is a permanent higher elementary school with 9 classes (standards 1 to VIII with 2 divisions in the II Standard) and ten teachers (3 Secondary and 7 Higher Elementary Grade teachers).

The 3 Secondary Grade teachers are atpresent handling the three higher elementary standards viz., VI, VII, and VIII The standards I to V comprising of 6 classes are being handled by 6 Higher Elementary Grade teachers and the remaining one Higher elementary grade teacher is working as a prevocational instructor.

The strength and average attendance of all the 8 standards for 3 months from July to September 1953 are furnished herewith:

Total.	235	197	233	203	233	210

The Assistant Director of Fisheries, Mangalore reports that the standard I with a strength of 53 and average attendance ranging from 44 to 47 is in charge of a single teacher and that he finds it very hard to manage such a large number of pupils in one class. As per rules in the Madras Elementary Education Manual, there should be a teacher for every 35 students in a class. As such, to satisfy the Elementary Education Rules in force, it is necessary to bifurcate standard I and emply an additional Higher elementary Grade teacher.

I therefore request that Government may be pleased to sanction the bifurcation of standard I into 2 classes in Kanhangad Higher Elementary school and the employment of an additional Higher Elementary Grade teacher on Rs.30-1-50 p.m. for a period of one year from the date of appointment.

The financial implications involved in this proposal are Rs.600/- recurring and Rs.300/- non-recurring as detailed below.:--

1. Recurring:

Pay of one Hr. Ele. Grade teacher	360	0	0
D.A. -do-	228	0	0
